Dear Madam / Sir,

### Proposal – Heartfulness Enabled Leadership Mastery Program

#### Introduction

The Heartfulness Education Trust is the educational arm of the Heartfulness Institute. The Heartfulness Institute is a global institute headquartered in India that offers free of cost heart-based meditation training to all citizens of the world above the age of 15. Currently, Heartfulness Institute affiliate meditation is being offered in 138 countries and with around 40 lakh practicing meditators around the world. The meditation is free for all aspirants and all other services offered are on a voluntary basis.

The Institute recently completed 75 years of its establishment and is currently headquartered at Kanha Shanti Vanam, Telangana (very close to Hyderabad International Airport) which is also the host of the world's largest meditation hall, inaugurated by Hon. President of India Shri. Ram Nath Kovind. Prime Minister Mr. Narendra Modi most recently, and the AICTE chairman Prof. Anil D. Sahasrabudde have recently felicitated the growth of the organization.

#### Institute and Department Details

The Heartfulness Education Trust was started around 6 years ago and runs various value based and educationally innovative programmes globally, such as value-based education school and college curricula, wellness workshops, yoga and meditation retreats and fellowship programmes to all members of the public ranging from primary school students, undergraduate and post graduate students, teaching faculty and educational administrators across India and the world. As part of one of its flagship programmes launched last year- the Heartful Campus - has currently trained around 90,000 students and 300 faculty in more than 100 colleges in India.

The Heartfulness Education Trust is uniquely poised to engage with the affective dimension of curricula, complementing already existing efforts in the wider world to improve the cognitive

(perspective based) and psycho-motor (skill based) dimensions of curricula. We are interested in the affective dimensions of learning – helping all members of a university to connect their inner lives with their outer worlds, with balance and joy.

### **Workshop Pedagogy**

Such affective learning-based curricula is collectively labelled as Contemplative Pedagogy which is a system of practices, foregrounded in meditation, aimed at improving the capacity of students and learning drawing insights from our inner examined lives and from the challenges that the world poses us as individuals and as citizens of the world. From Sage Patanjali's Yoga Sutras to the Buddha's eight fold path, to the modern day Heartfulness and Mindfulness traditions, Meditation has been central to generations of is uniquely poised to engage with the affective dimension of curricula, complementing already existing efforts in the wider world to improve the cognitive (perspective based) and psycho-motor (skill based) dimensions of curricula. We are interested in the affective dimensions of learning – helping all members of a university to connect their inner lives with their outer worlds, with balance and joy, human beings to lead balanced and meaningful lives. The ability to learn and evolve using meditation is a 'kala' as the National Education Policy of 2020 explains and something that we are familiar from our yogic and religious traditions. But meditation is also validated by science as much of the recent research on the brain called Neuroplasticity indicates in the areas of mental health and the performance of the brain.

We aim to offer different kinds of workshops in the online (face to face programs can be considered once the Govt. authorities announce that the country is Covid safe). We believe that the depth of expertise and commitment of our volunteers currently working at various educational institutions including the IITs, IIMs, NITs and the liberal arts universities in India and abroad, and the breadth of the number of trainers can easily match the scale of the demand for value-based holistic education in India.

### **Program Design**

The Heartfulness Enabled Leadership Mastery (HELM) Program is a flexible program with 20 modules per year, each session of 2 hours duration, where participants will go through theory sessions on various topics of self-development followed by practical, guided meditation. This course is 40 hours certification course

### **Objectives**

The objective of the HELM program is to inspire the students to experience and enrichment one derives through adopting alternate contemplative approaches towards learning and developing oneself. At the end of the program, participants would have learnt to adopt meditative approaches for developing holistic lifestyle and personal evolution.
