S.No.	Feedback
1	The students working sincerely in a dedicated committee (Art Circle, etc) or seasonal committee (Fresher's, Farewell's or College Fest SONOROUS COMMITTEE) must be provided with notes as they miss lectures due to its preparation and pre-event workloads. The learning should be done in such a way that the Students take it as a competitive game. The notes of each and every subject should be available on a dedicated notes application (including Assignments).
2	There is nothing to improve the overall teaching of all the teaching are good
3	Incorporate discussions, group activities, and hands-on projects to make lessons engaging and relatable. Use tools like quizzes, case studies, and multimedia to cater to various learning styles. Regularly assess student progress through assignments, tests, and class participation. Offer constructive feedback promptly to help students identify their strengths and areas for improvement.
4	Teach with LCD, projector, encourage students with work together, set objective
5	Please Extended the recess time
6	The teaching in our institution is systematic and the teachers are thoroughly in contact with us. We can ask doubts to our teachers without hesitating. There are weekly book checking sessions and assignment checking.
