21. Give three observation / suggestions to improve the overall teaching learning experience in your institution:

Everything is good as per online system, Use Spaced Repetition, Projector, All well. Thank you, To take Regular Feedback, Conduct online Lectures for doubt Solving, Provide notes during examination (Importance), Give unique example to make more understand and provide some additional knowledge related with the subject as well, Best online classes, Please give the question bank before the exam, There are teacher who are not teaching properly, not taking lecture because of which hardly 1/4 course get complete but ask everything in exam and when we message them they didn't give reply to us and when we call then fist they didn't picked up our call luckily if the pick our call they say wrong number and cut the call, Teacher's should be friendly with the students. There are 1- teacher who are little more strict to students, Teacher's should to give notes of every lecture. Because if any student miss the lecture they at least able to know what was going in the lecture, Better internet connection, Attractive communication while teaching, It was good
