

T.Y. Examination Guidelines

Date: 5th April, 2022

Students of TYBA/Bcom/BMS/BBI/BScIT are hereby informed that the Semester VI Regular and ATKT examinations would be held through the 'Teach Us Software. Students are requested to go through the following guidelines for the examination.

- Please note the examination will be a **Camera Proctored Examination**.
- Use this link to login to the software- <https://nktt.teachusapp.com/>
- Login with the password that you have set during your mock test.
- Login at least 15 minutes before the examination.
- Wait for test to become active test. Your test will be in the 'Active test' tab as soon as the test time starts.
- DO NOT minimize the screen or switch screens or else you will be thrown out of the examination software and your paper will be automatically submitted.
- DO NOT take calls or reply to messages during the examination.
- DO NOT refresh the page continuously, refreshing the page for more than 3 times will result in being thrown out of the software.
- Use of calculator is allowed.
- Check all questions before you actually submit the test.
- In case of any technical issues faced during the examination, students are requested to inform the technical team.
- **Students are also requested to go through the Demo video of the software to gain a proper understanding of the camera proctored software.**
- **Giving Mock test is mandatory**. Students who do not take the Mock test will not be able to appear for the examination.

Dr. Manoshi Bagchi
